# I am passionate about making people feel their absolute best

I am an experienced makeup artist and whatever the style, I work with brides and their wedding parties to find the right individual makeup looks and products for your special day. From my salon in Chorley, I also offer other beauty preparations including brows, lashes, waxing and facials.

On the day, whether at the salon, your home or local venue, I will be there to make you look exactly like you imagined. I also work with the best hair stylists and nail technicians and can refer you for complete ease.
